● Save thousands of dollars

You simply take-over someone else's monthly lease payments for the time remaining on the lease. No down payments required.

[Find out more](#)

● More car more often

Taking over a lease gives you flexibility to lease a vehicle for a short amount of time. Even for a year if you like without the long-term commitment.

Here is how it works

1. To ensure you have a good chance of qualifying for the lease, we ask that you submit an online credit application. We collect a \$24.95 fee. Within 24 hours you will be contacted with the results.

[Learn more](#)

2. When approved, start talking to the person transferring the lease.

3. If you both agree on transferring the lease, you will then need to sign the necessary documentation requested by the Finance Company.
